

University of California, Los Angeles
Department of Mechanical & Aerospace Engineering

Faculty Position in Aerospace Engineering

As part of a major expansion, the Department of Mechanical & Aerospace Engineering in the Henry Samueli School of Engineering and Applied Sciences at UCLA is conducting a search for exceptional faculty candidates in space-related research areas (Job #JPF03211). Areas of interest include but are not limited to: spacecraft, space missions, astronautics, guidance, navigation, and control, and other space-related cyber-physical systems, remote sensing, spacecraft power, propulsion, and space science. Applicants are sought at all levels. Our hiring priority is focused on the frontiers of space research, where a candidate's impact, originality, and promise for building a strong program has been demonstrated. We are interested in outstanding candidates who are committed to excellence in teaching and scholarship and to a diverse campus climate.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see: UC Nondiscrimination & Affirmative Action Policy.

This position requires a Ph.D. or equivalent in engineering or a closely related discipline at date of hire. Applications received by January 31, 2018 will receive full consideration, but the search will continue until June 30, 2018.
